A short (and sweet) version of the Mancini classic. Very chordy, so be sure to let the melody come out through the chords. All credit to Dieter Kleeman, who wrote this tab out for me from memory.

"Moon River" - Henry Mancini

-----

Tabbed by: Lann <sylenz@hotmail.com>

This is a nice version of this romantic piece best enjoyed with a classical guitar. The timing bars should be used only as a guide, and I didn't include any indication of the duration of notes (sorry...). However, after getting the feel of the song, you'll know the best place and duration for each note...
